ALLOWANCE

1. This action is in response to Applicant's after-final amendment filed on 9/11/2008.

Claims 1, 3, 4, 7, 11, 15, and 16 have been canceled. Claim 13 is amended. Claims 13 and 18-20 are presented for further examination.

2. Claims 13 and 18-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claim 13 as amended distinguishes a method over the prior art by delineating a process for predicting a time period during which a vehicle area network will remain within communication range of a local area network where the prediction is based at least in part on the vehicle's status including at least one of engine status, passenger status, door status, trunk status, hood status, and fuel cap status. Another important feature of the method includes the selection and subsequent transfer of an appropriate file based on the predicted time period. The prior art does not teach these combination of features nor does it indicate that it would have been obvious to one of ordinary skill in the art to have predicted a time period of communication based on the claimed factors in addition to selecting appropriate files based on the predicted time in the fashion presented in claim 13. Claim 13 therefore show a patentable distinction over the prior art. Claims 18-20 are allowed due to their dependence on claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2152

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
